liability.

Sec. 15. The amount of the credit to which a qualified individual is entitled in a taxable year is the lesser of the following:

(1) The qualified individual's tuition expense.

(2) The maximum permissible credit permitted for a particular year.

Sec. 16. The maximum permissible credit that may be granted for a qualified dependent on all tax returns for all taxable years ending in a particular year is the amount determined under STEP FOUR of the following formula, rounded to the nearest dollar (\$1):

STEP ONE: Determine, for the school corporation in which the qualified dependent has legal settlement on the first day of the qualified individual's taxable year, the state distribution for tuition support for basic programs, as determined under IC 21-3-1.7-8.2 after making any reductions in the distribution that were required under IC 21-3-1.7-9, in the year immediately preceding the year in which the qualified individual's taxable year began.

STEP TWO: Determine the current ADM for the school corporation in which the qualified dependent has legal settlement in the year immediately preceding the year in which the qualified individual's taxable year began.

STEP THREE: Determine the result of:

(A) the STEP ONE amount; divided by

(B) the STEP TWO amount.

STEP FOUR: Multiply the STEP THREE result by the following:

(A) Five-tenths (0.5) if the qualified individual pays or incurs a tuition expense in the qualified individual's taxable year for an entire school year (as defined in IC 20-18-2-17).

(B) A lesser percentage determined under the rules adopted by the department of education, if the qualified individual pays or incurs a tuition expense in the qualified individual's taxable year for less than an entire school year (as defined in IC 20-18-2-17). The department of education shall adopt rules to establish a credit percentage schedule for the payment of credits for qualified dependents who do not enroll in or pay tuition to a participating school for an entire school year (as defined in IC 20-18-2-17). The schedule must be proportional to the educational services received by the qualified dependent.

Sec. 17. The department of education shall:

(1) post the maximum permissible credit amounts applicable to a year on the Internet web site of the department of education; and

(2) certify the maximum permissible credit amounts applicable to a year to the department of state revenue;

not later than May 1 in the year to which it applies. The department of education shall maintain the information for a particular year on the Internet web site for at least two (2) years.

Sec. 18. (a) If the amount of the credit to which a qualified individual is entitled in a taxable year exceeds the qualified individual's tax liability for the taxable year, the qualified individual may:

(1) carry the excess over to the following taxable years; or

(2) be granted a refund of the excess amount.

The amount of the credit carryover from a taxable year shall be reduced to the extent that the carryover is used by the taxpayer to obtain a refund or a credit under this chapter for any subsequent taxable year.

(b) A qualified individual is not entitled to a carryback of any unused credit.

Sec. 19. To qualify for a credit, a qualified individual must claim the credit on the forms and in the manner prescribed by the department of state revenue. The qualified individual must provide the department of state revenue with the information necessary for the department of state revenue to determine the amount of the credit to which the qualified individual is entitled. The department may prescribe an abbreviated form for a qualified individual who would not otherwise file a tax return to receive a refund under this chapter.

Sec. 20. A credit granted under this chapter may not be considered in determining the eligibility of a qualified individual or qualified dependent for Medicaid or any other entitlement program.

Sec. 21. The amount of a credit granted under this chapter, including the amount of a credit assigned to a school of choice, shall be excluded from the adjusted gross income of a qualified individual to the same extent that the amount is excluded from federal gross income under Section 117 of the Internal Revenue Code.

Sec. 22. A qualified individual shall be treated as paying or incurring a tuition expense if the qualified individual assigns a

1 credit in accordance with this chapter to a school of choice in full
 2 satisfaction of the qualified individual's obligation to pay a tuition
 3 expense. However, the amount of the credit that a qualified
 4 individual is entitled to apply against the qualified individual's tax
 5 liability or to receive as a refund is reduced by the amount of the
 6 credit that is assigned to a school of choice.

7 Sec. 23. (a) A school of choice may enter into an agreement with
 8 a qualified individual to assign a credit in accordance with this
 9 chapter to a school of choice in full satisfaction of the qualified
 10 individual's obligation to pay tuition expense.

11 (b) The assignment of a credit in full satisfaction of the qualified
 12 individual's obligation to pay tuition expense for a full school year
 13 (as defined in IC 20-18-2-17) is valid even if some of the
 14 educational services will be provided in the qualified individual's
 15 taxable year that immediately follows the taxable year in which the
 16 assignment is made.

17 (c) An agreement must be in the form prescribed by the
 18 department of state revenue.

19 Sec. 24. A school of choice that is assigned a qualified
 20 individual's credit is entitled to a credit against the school of
 21 choice's tax liability for the taxable year for which the school of
 22 choice would have recognized income if the qualified individual
 23 had paid tuition.

24 Sec. 25. The amount of the assigned credit is the least of the
 25 following:

26 (1) The tuition rate that the school of choice regularly charges
 27 for the kindergarten services provided to students in the same
 28 classification as the qualified dependent.

29 (2) The actual amount of the obligation to the school of choice
 30 that the qualified individual would have been required to pay
 31 to the school of choice if the qualified individual had not
 32 assigned the credit.

33 (3) The maximum permissible credit permitted for the year in
 34 which the school year (as defined in IC 20-18-2-17) in which
 35 the qualified dependent enrolled begins.

36 (4) If the school of choice is the school corporation in which
 37 the qualified dependent has legal settlement, the amount of
 38 excess costs incurred by the school corporation to educate the
 39 qualified dependent in a public school outside the qualified
 40 dependent's attendance area, as determined under the rules
 41 of the department.

42 Sec. 26. (a) If the amount of an assigned credit exceeds the tax

liability of a school of choice for a taxable year, the school of choice may:

- (1) carry the excess over to the following taxable years; or
- (2) receive a refund of the excess amount.

The amount of a credit carryover for any subsequent year is reduced to the extent that the school of choice applies the credit to tax liability in a taxable year or the school of choice receives a refund.

(b) A school of choice is not entitled to a carryback of an unused credit. A shareholder, partner, or member of the school of choice is not entitled to a pass through of a school of choice's assigned credit.

Sec. 27. To qualify to use an assigned credit, a school of choice must claim the assigned credit on the forms and in the manner prescribed by the department of state revenue. The school of choice must provide the department of state revenue with the information necessary for the department of state revenue to determine the amount of the assigned credits to which the school of choice is entitled. The department may prescribe an abbreviated form for a school of choice that would not otherwise file a tax return to receive a refund under this chapter.

Sec. 28. The amount of an assigned credit shall be treated as income to a school of choice to the same extent as if the qualified individual assigning the credit had paid tuition to the school of choice.

Sec. 29. Before August 2 in each year, the department of state revenue shall distribute to the department of education an informational report that contains at least the following information:

- (1) The number of qualified dependents for whom credits were granted in the immediately preceding year.
- (2) The number of nonpublic schools providing a kindergarten program to qualified dependents for whom credits were granted in the immediately preceding year.
- (3) The number of school corporations providing a kindergarten program to qualified dependents for whom credits were granted in the immediately preceding year.

Sec. 30. Acceptance by a nonpublic school of a credit does not provide any governmental entity or agency with jurisdiction, authority, or control over the nonpublic school that is not otherwise granted by law.

"SECTION 2. IC 21-3-1.7-8.2, AS AMENDED BY P.L.246-2005, SECTION 199, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JANUARY 1, 2006 (RETROACTIVE)]: Sec. 8.2. (a) Notwithstanding IC 21-3-1.6 and subject to section 9 of this chapter, the state distribution for a calendar year for tuition support for basic programs for each school corporation equals the result determined using the following formula:

STEP ONE: For a:

(A) school corporation not described in clause (B), determine the school corporation's result under STEP SEVEN of section 6.7(c) of this chapter for the calendar year; and

(B) school corporation that has target revenue per adjusted ADM for a calendar year that is equal to the amount under section 6.7(c) STEP ONE of this chapter, determine the sum of:

(i) the school corporation's result under section 6.7(c) STEP ONE of this chapter for the calendar year multiplied by the school corporation's adjusted ADM for the current year; plus
(ii) the amount of the annual decrease in federal aid to impacted areas from the year preceding the ensuing calendar year by three (3) years to the year preceding the ensuing calendar year by two (2) years; plus

(iii) the part of the maximum general fund levy for the year that equals the original amount of the levy imposed by the school corporation to cover the costs of opening a new school facility or reopening an existing facility during the preceding year.

STEP TWO: This STEP applies to a school corporation that is not a charter school. Determine the sum of:

(A) the school corporation's tuition support levy; plus

(B) the school corporation's excise tax revenue for the year that precedes the current year by one (1) year.

STEP THREE: This STEP applies to a charter school. Determine the product of:

C
o
p
y

- (A) the amount determined under section 6.7(c) STEP SEVEN of this chapter for the charter school; multiplied by
- (B) thirty-five hundredths (0.35).

STEP FOUR: Determine the difference between:

- (A) the STEP ONE amount; minus
- (B) the STEP TWO or STEP THREE amount, as applicable.

STEP FIVE: Determine the result of:

- (A) the STEP FOUR result; minus**
- (B) the amount determined under subsection (c).**

(b) If the state tuition support determined for a school corporation under this section is negative, the school corporation is not entitled to any state tuition support. In addition, the school corporation's maximum general fund levy under IC 6-1.1-19-1.5 shall be reduced by the amount of the negative result.

(c) The amount to be used under subsection (a) STEP FIVE (B) is the greater of:

- (1) zero (0); or**
- (2) the amount by which the department of education determines the school corporation's state tuition support distribution would be reduced as a result of the enrollment of qualified dependents (as defined in IC 6-3.1-31-8) in a school of choice (as defined in IC 6-3.1-31-11) rather than the school corporation if section 6.6 of this chapter did not apply to the school corporation.**

The department of education shall base a determination described in subdivision (2) on an analysis of the effects of IC 6-3.1-31 on the trend of enrollment of eligible pupils and qualified dependents (as defined in IC 6-3.1-31-8) in kindergarten in each attendance area of the school corporation. The department of education shall review the methodology used in the analysis with the budget committee."
